How to increase your fundraising impact

With the right private and business addresses, professional data preparation, and high-impact mailing solutions, we create the basis for successful donor acquisition campaigns. We check movers, deceased records, suppression lists, duplicates, and deliverability to make sure your message arrives. On request, we identify postal addresses for existing email leads and combine digital reach with the proven strength of postal communication.

Our promise:

Less wasted reach. More impact. More new donors!

Unlock more fundraising potential with a donor acquisition campaign that effectively combines audiences, data quality, and messaging! We would be happy to advise you personally.
